

FrameSaver™ 9120 Access Unit Errata

Document Number 9121-A2-GK43-00

June 1998

This document contains information concerning the use of the FrameSaver 9120 access unit that is not included in your user documentation. Keep this document with your FrameSaver 9120 access unit's documentation.

This information applies to the following documents:

- *FrameSaver 9120 User's Guide* (Document No. 9121-A2-GB20-10)
- *Quick Reference*, included with the *FrameSaver 9120 User's Guide*
- *FrameSaver 9120 Technical Reference* (Document No. 9121-A2-GH30-10)

Increased the Number of Digits for ISDN BRI-Bn Telephone Number under ISDN BRI DBM Configuration Options

The BRI-Bn Phone Number configuration option has increased the number of digits allowed from 7 to 19.

Table 4-4. ISDN BRI DBM Options

BRI-Bn Phone Number
Possible Settings: 7–19 digits Default Setting: Clear
Provides the telephone number associated with the Bearer channel, B1 or B2. This configuration option must contain a phone number or BRI must be set to Disable. 7–19 digits – Where you enter the telephone number. If a nondigit/numeric is entered, an Invalid Character (x) message appears at the bottom of the screen. If fewer than 7 digits/numerics are entered, an Invalid – Phone number must be at least 7 digits message appears at the bottom of the screen. Clear – Clears the phone number field so it can be reentered.

This change affects the following documents and pages:

- Quick Reference, *ISDN BRI*, page 7.
- Technical Reference, *Setting Up the ISDN BRI DBM Interface's Physical Options*, page 4-35.
- Technical Reference, *ISDN BRI DBM Options Configuration Worksheet*, page B-4.

Added No Caller ID Status Message to DBM Interface Status

A No Caller ID Message was added to the DBM Interface Status under the Remote Call ID field.

Field	Status	What It Indicates
Remote Call ID	No Caller ID	The network is not providing the caller ID of the calling device.

This change affects the following document and page:

- User's Guide, *DBM Interface Status*, page 4-20.
